#### EN CLASSE

**Discussion Questions: Prepare the following questions for discussion in class tomorrow.**

1. Why might it be important to give movie times in official time?
  
  
  
  
  
  
  
  
  
  
2. VF and VO are abbreviations that tell whether a movie is being shown in version française (in French or with French dubbing) or version originale (in the original language with French subtitles). Which movies are being shown in version française? In version originale? Which format would you prefer if you were spending some time in France? Why?

3. Roleplay with 2 or 3 classmates: Imagine that you want to go to the movies to see a movie.

You will ask the attendant several questions: What time does (movie name) start? Is it a good film? Etc.

Switch roles once you have the information you need to have a nice night out.

À quelle heure commence ...?	At what time does ... start?
Quels films commencent à 14/17h...?	Which movies start at 2/5:00 PM?
Est-ce que c'est un bon film ?	Is it a good movie?
Combien ça coûte?	How much does it cost?
